

## GSV01

### Ozone Sanitizing Spray Bottle

#### FEATURES

Bluamec technology

Safe to use

High efficiency

Requires only water

Zero chemical addition

Zero chemical residue

Our patented technology allows you to create a sanitizer - aqueous ozone, from water itself, as an alternative to traditional sanitizers and cleaners.

Simply fill with common tap water, press the power button, and the spray bottle instantly converts the water into a powerful disinfectant - ozone water, for on-demand disinfection anywhere, anytime.

# Tests & Certificates

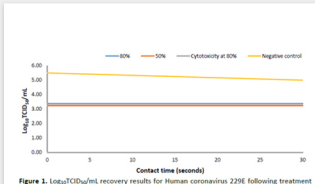

Figure 1. Log10CFU/ml recovery results for Human coronavirus 229E following treatment with Deposon 300 at 80% and 50% concentration for 30 seconds contact time, according to a modified BS EN 14476:2013+A2:2015.

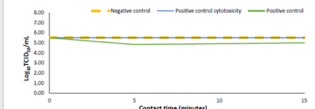

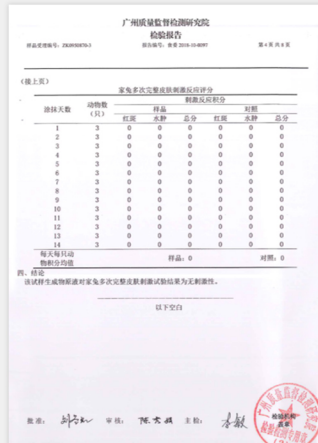

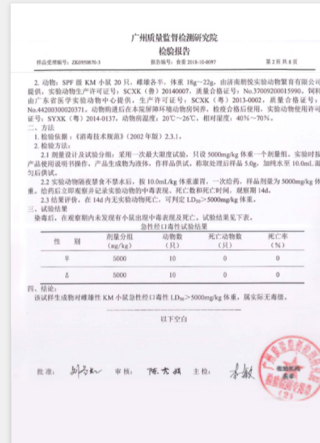

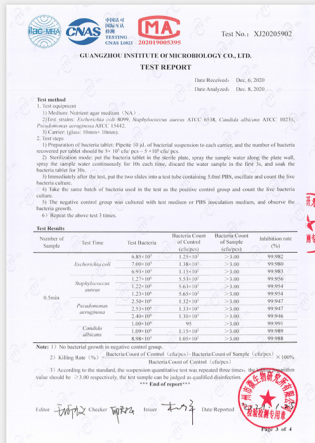

Figure 2. Log10CFU/ml recovery results for Human coronavirus 229E following treatment with 0.7% formaldehyde at 5 and 15 minutes contact time, according to a modified BS EN 14476:2013+A2:2015.

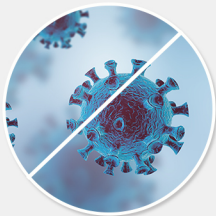

Bactericidal test (Virus)

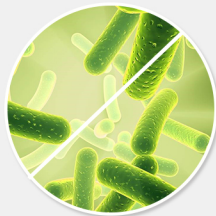

Bactericidal test (Bacteria)

Toxicity test

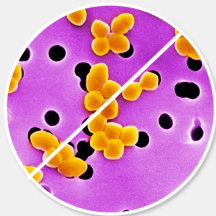

Irritation test

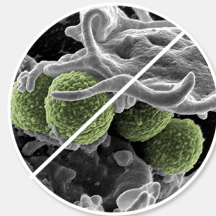

Corona virus

Escherichia coli

Staphylococcus aureus

Candida albicans

# Qualifications

Patented Products

FDA/CE/RoHS/FCC/NSF

SGS ISO:9001

## CLEAN

After using the ozone water sprayer, you will save a lot of chemical cleaners and disinfectants, reduces the harm for human body by chemicals. Clean is becoming easier and more efficient.

## SANITIZE

Ozone water generated by Bluamec sanitizing technology kills >99.9% of some of the most harmful bacteria in less than 30s. As an absolutely safe disinfectant, it is recommended by FDA.

## DEODORIZE

The powerful oxidation of ozone water can react with organic matter and decompose the source of odor, safe and eco-friendly.

### For Home

- Furnitures
- Kitchen appliances
- Baby products
- Sanitary ware

### For Public Place

- Restaurants
- Offices
- Schools
- Markets

### For Travel

- Hotels
- Private cars
- Outdoors
- Public transports

### For Health Care

- Hospitals
- Nursing homes
- Clinics
- Oral care

# Applications

Babies

Elderly people

Pets

Travellers

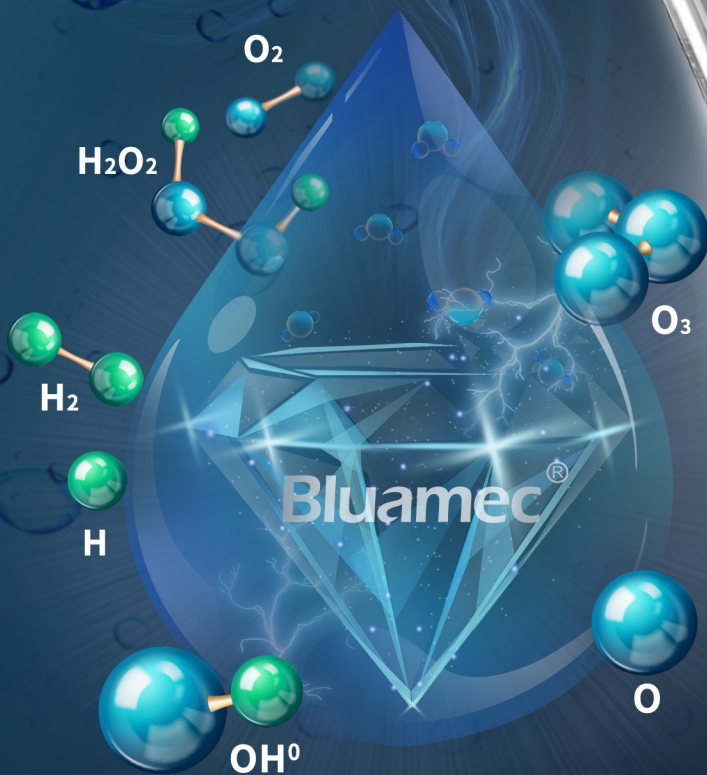

Service staffs

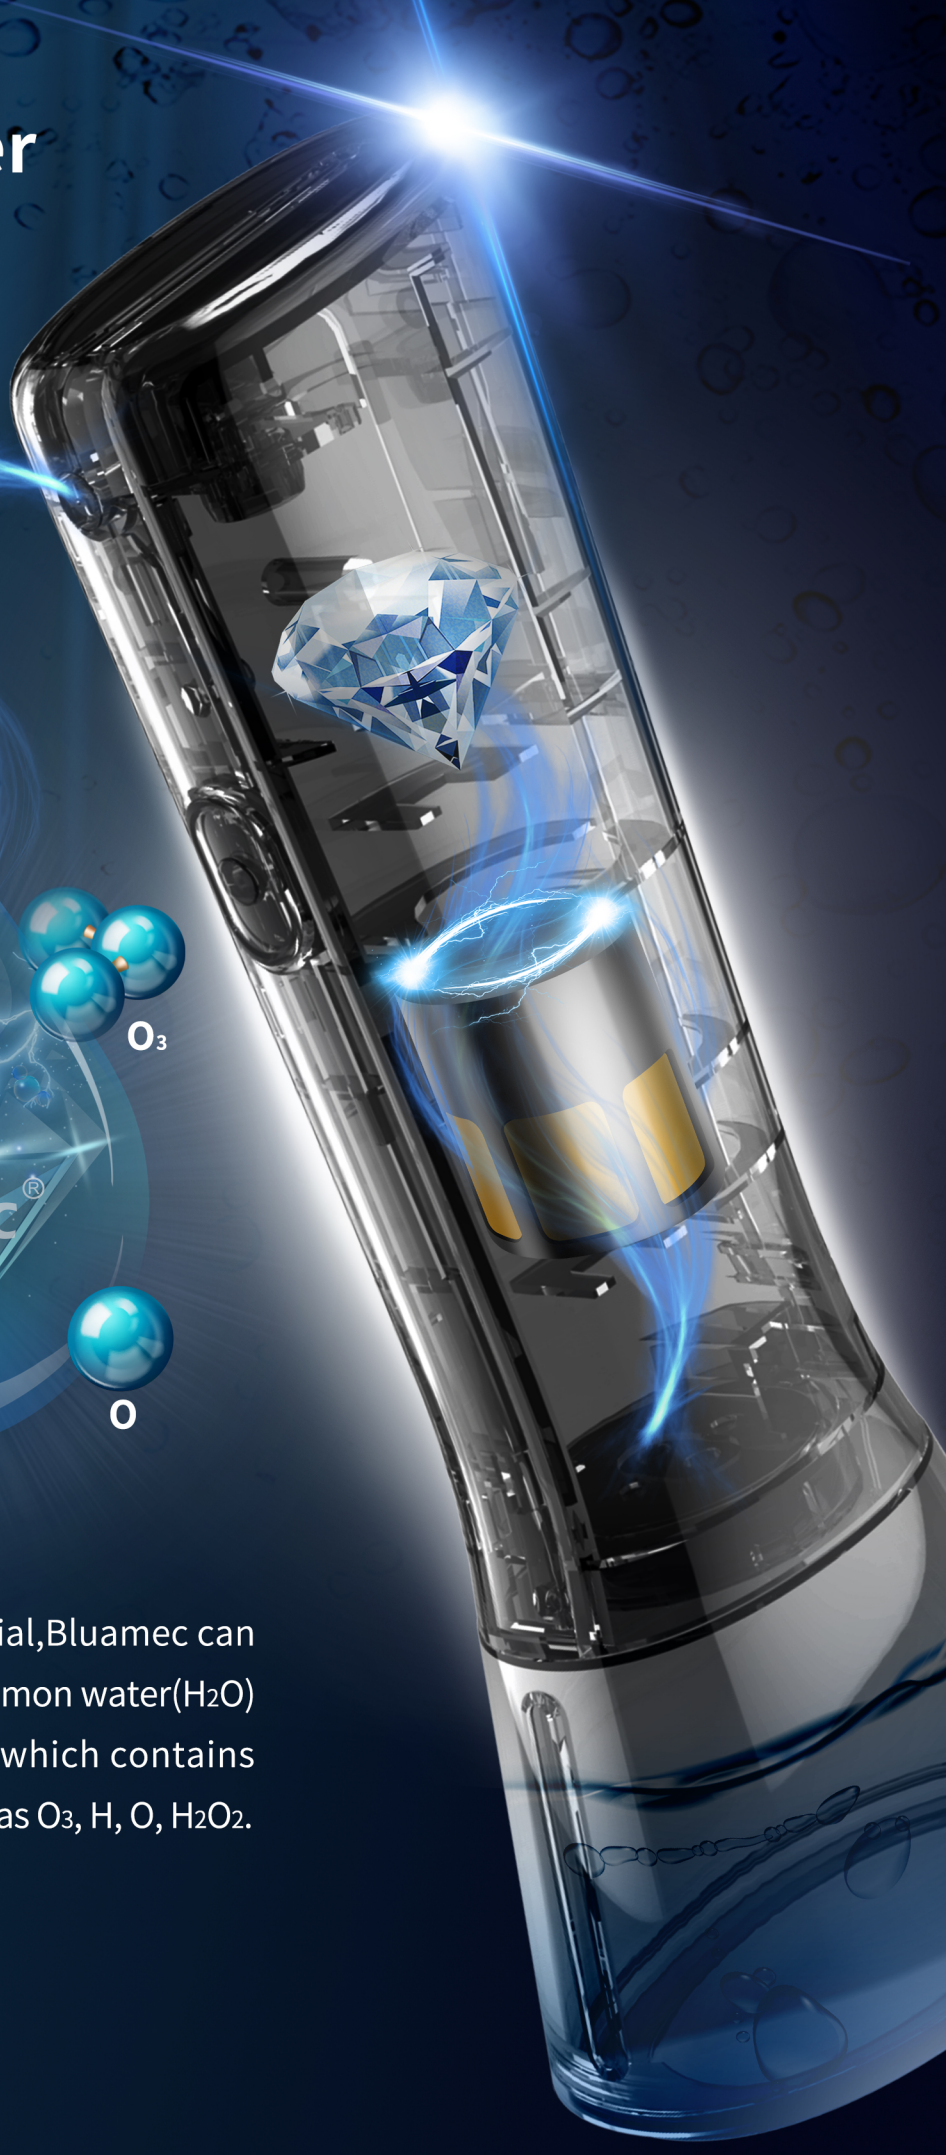

Epidemic prevention workers

OPEN A NEW ERA OF ZERO CHEMICAL DISINFECTION

# Bluamec Water Molecular Reconstruction Technology

\* As an advance electrode material, Bluamec can instantaneously electrolyze common water ( $H_2O$ ) into super bactericidal water, which contains ultrastrong oxidizing group such as  $O_3$ ,  $H$ ,  $O$ ,  $H_2O_2$ .

## CHARGE

- Fully charged in 2-3 hrs
- Lasts for hundreds of sprays

## FILL

- Quick release reservoir, opens easy
- Use common tap water or purified water

## SANITIZE

- Press power button to creat Bluamec germicidal factor

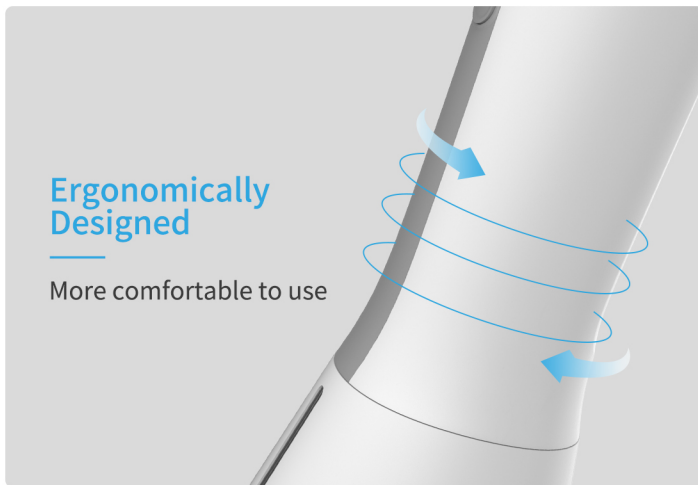

**On demand sanitizing**  
Press→Spray→Santize

**USB Charging**  
USB Type-C connector

**Ergonomically Designed**  
More comfortable to use

**Large capacity**  
150ML big water reservoir

### WATER-BASED

Non-toxic,eco-friendly water-based sanitizer,As long as you have tap water, you'll never run out of sanitizer.

### RAPID GENERATION

Generate ozone water synchronously, without waiting.Cleans and sanitizes on demand at any time&any places.

### KILLS > 99.9% IN SECS

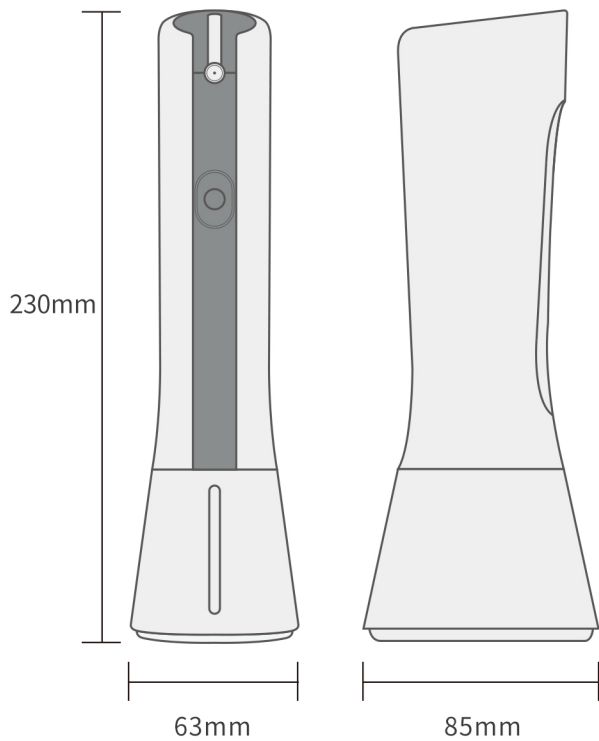

Quickly kills >99.9% of bacteria, harmful germs and virus in less than 30s. Ozone water is also proved to kill COVID-19.

### CHEMICAL-FREE

Deposon spray bottle creates its own disinfecting&sanitizing solution! Without any chemical addition and residue.

## Product Specifications

<b>Model</b> GSV01	<b>Reservoir</b> 150ml	<b>Color</b> White
<b>Dimension</b> 85*63*230mm	<b>Net Weight</b> 300g	<b>Battery Charging</b> USB Type-C
<b>Battery</b> 7.4V Li-ion, 800mAh	<b>Charge</b> 3hrs	<b>Concentration*</b> Average 1.2ppm
<b>Water Quality</b> Clean tap water (4-40°C)	<b>Life Span</b> More than 50000 times spray(10s/spray)	

\* Tested with clean water (TDS≈100ppm, temperature≈25°C)  
Ozone concentration varies depending on conditions such as water quality or water temperature.

### About Us

Guangzhou DEPOSON Electric Co.,Ltd. is the world's leading provider of technical service and product solutions of Bluamec Technology. Bluamec technology is widely used in the fields of disinfection, medical and health, Industrial pollution treatment, agriculture and food safety, etc.
